But even if the least suppossible damage were done, it would be relly to expect that the necessary repairs round be made in side of thirty daws, or even a considerably longer period. The Consolidated Virginia battery and mills will also be repaired as soon as possible. The cuttin C. shid C. mill cost about five numbered thousand dollars, but a portion of it was left intact. The Consolidated Virginia mill was self intact. The Consolidated Virginia mill was also very expensive and complete. The difficulty about are or, due tions, however, does not lie in the failure of milling facilities, for until the new establishments are exected recourse could be had to ments are erected recourse could be had to Brawnswick & Morgan's mills, which are equal in capacity to the one bernet. Besides, there are several other small mills which could be called into requisition. As regards the other than the could be called into requisition. The smoke this evening came from the mains of the calkhead, but the foreman says it came from bulkhead, but the foreman says it came from the Ophin, and that there exame possibly be any fire below. This is deemed strange by many, as there is no connection between these mines except at a point considerably below one thousand feet level, and as a strong coal-like gas comes from the Curry, it creates fears. The gas cannot go into the Savage, as the connecting level is bulkheaded. From information received this morning from private sources, it seems evident that the exact condition of the mines is yet unknown. The presence of gas and smoke excites considerable suspicion that some scrious damage has sie suspicion that some serious damage has been sustained in the workings. In the open session this morning a feeling of uncertainty was manifested, and Ophir and Bohonza stocks vibrated at figures off from yesterday's onetallors.

stocks vibrated at figures off from yesterday's quotations.

Private dispatches convey the gratifying information that the mines are all right. Men have been through from Gould & Chryg'ro Ophir. There is no fire in the workings, and no damage was done. The water is decreasing, and the damage to the Ophir shaft is timited to a few feet at the top. Consolidated Virginian evidently feets the effect of the news, having just zone up to 315 and 250 in the news, having just zone up to 315 and 250 in the news, having just gone up to 215 and 250 in the board, against 252% in open session.

It was very important that he should do so; sheriff Murphy shook hands with me when he came up to me on the train; Smith told him he had arrested me on a warrant iron the governor of the State, but Murphy said, "I don't care if you have, or under what authority you have done it, I have a writ of habeas corpuls for him to take him back to Memphis; smith borrowed Murphy's spectacies, went back to the light, read the writ and authority, and made no resistance; Smith told him that he might have taken me away up the river in a tug, but that the owners wanted two hundred dollars for the use of the tug; the reason that I did not call out when I was being driven through the street, was be-

Geas-Examined.—That was before the Mary Beli came in; It was then about three o'c ock. I had an engagement to meet Tighe at two o'clock, but I hart my foot, and it was half-past two before i got to his room; his room is about one hundred yards from No.8 Howard's row.

Justice V. inters—Let us have it all. I will raie it out if necessary.

Witness—He said a great outrage was being committed on Mr. Tighe, but if it ever came out that he had told he would be dammed forever, and lose his official position in the city; but at the same line he thought it was his duty to tell what was going on so that Mr. Tighe's lawyers and friends in ght know all about it before he was carried clear away out of the State of Teunessee; I had been a prisoner myself during the war, and therefore the knew what it was to be a prisoner, and I could feel for one in Mr. Tighe's position; I was determined that justice should be done, and I therefore went off as soon as possible to see his lawyers and friends to see what could be done to get Mr. Tighe out; my husband was away and I acted as I did; Shelby had a note from Tighe to my husband, and swore me not to tell what he had told me.

Te-day Mr. Tighe, in company with his all prices, colonel Patterion, leaves for Cincinnati, to meet the charge set forth in the warrant, and to institute legal proceedings against Arhmes Brothers, eight ceuters, in that city, who are said to have sworn out the warrant. Governor Porter will make the subject of Alexander M. Smith's agency a matter of correspondence with Governor Allen, of Ohio. Under the circumstances with which the readers of the Appeals are conversant, Governor Porter will withdraw his requisition, if necessary, in order to keep Mr. Tighe out of Smith's possession. It appears that there is no indictment against Tighe in Cincinnati, and the proceedings upon which the requisition has been granted were contrary to all law bearing upon this subject, it seems that the warrant was issued upon the printed adidavit of the atterney. THE LAW ON THE SUBJECT of the punishment of kidnapping, as set forth in the Tennessee code, section 6021, prescribes "imprisonment for not less than three nor more than six years." Alexander M. Smith, the agent, may also be put to answer the alleged violation of code section 4813, which says: "If any person, by color of his office, witfully and corruptly oppress any pe son under pretense of acting in his official capacity, he shall be punished by find not exceeding one thousand dollars, or imprisonment in the county juil not exceeding one year." The warrant could easily have been served on Tiglie in a proper manner, for TENNESSEE CODE, SECTION 4308.

TENNESSEE CODE, SECTION 4368, says: "It is a misdemeanor for any sheriff or other officer wilfully to refuse to execute any lawful process which it is his duty to execute requiring the arrest and confinement of any person enarged with a criminal offense, or wilfully omit to execute such process, by which such person escapes."
